What Are We Facing With Now ?

01

What Are We Facing with Now ?

17.9 million
people die each year

from CVDs, an estimated 32% of all deaths worldwide.

Cardiovascular diseases (CVDs) are the leading cause of death globally.

**World Health
Organization**

85%

of all CVD deaths are due to heart attacks and strokes.

01

What Are We Facing with Now ?

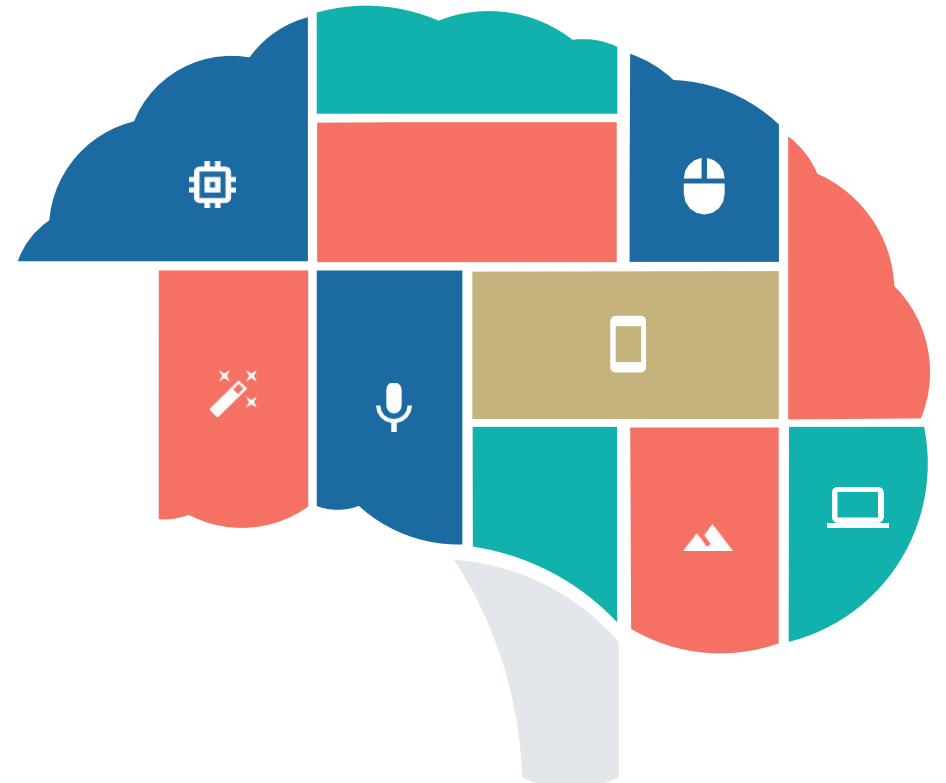

So, here are the questions....

- * The number of elderly patients with cerebrovascular disease is increasing rapidly, how to handle chronic disease management at home for their continuous health care?
- * Sudden cardiac death is the main cause of sports- and exercise-related mortality in athletes , how to avoid fatal events during the practice of sports?
- * How can we reduce our risk for heart attack?

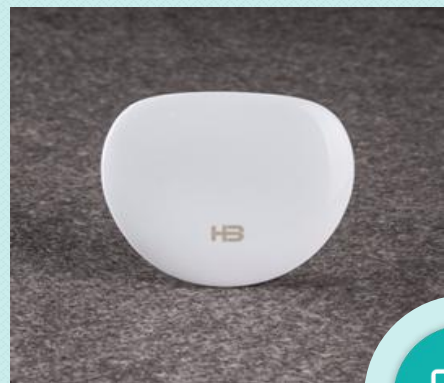

02

What Will Mintti Heartbook Do for You ?

Mintti Heartbook, Heart monitoring solution, anytime, anywhere

Remote dynamic ECG monitoring device, all-weather 24/7 continuous monitoring of the heart.

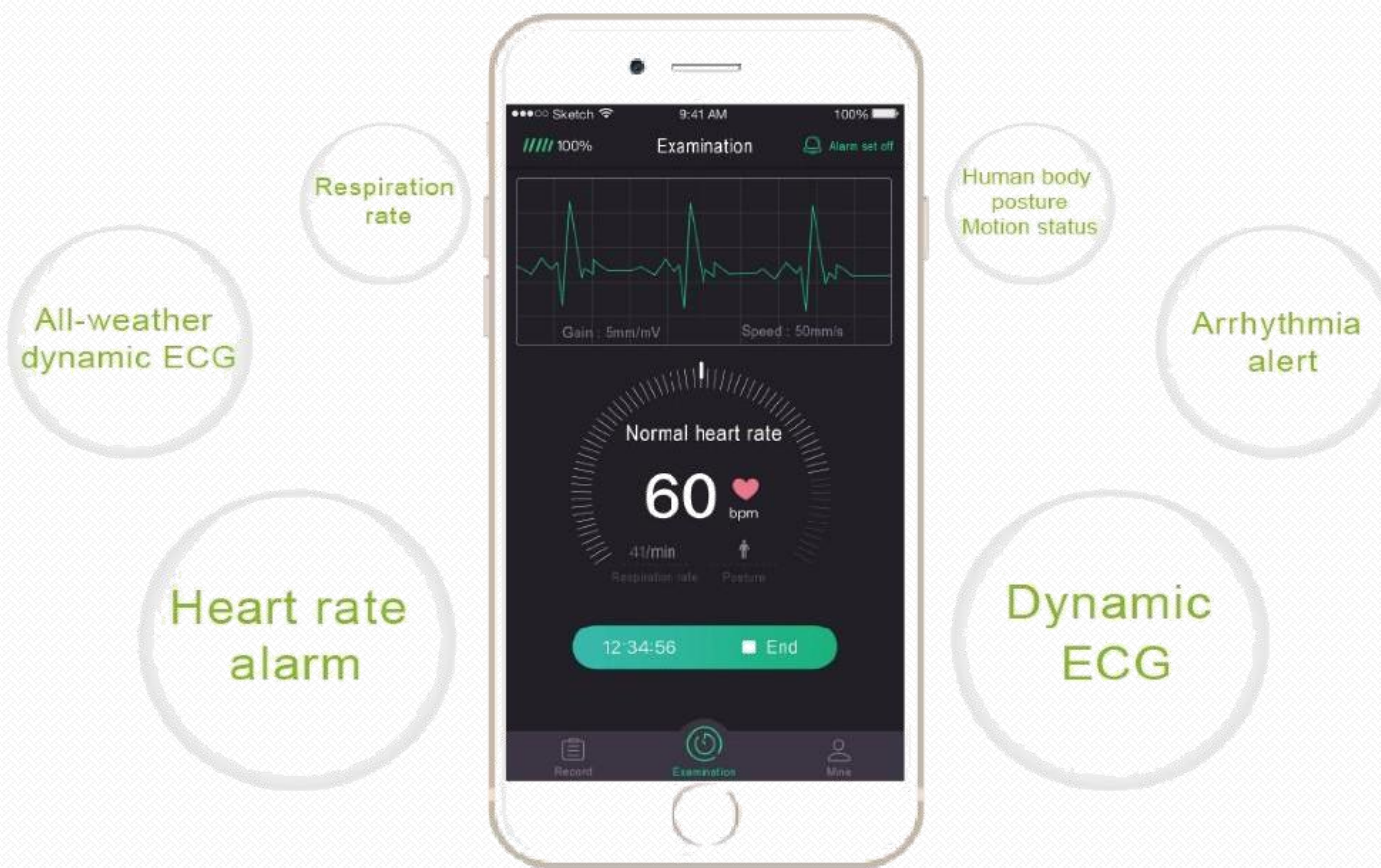

Intelligent wearable Real-time monitor of multi- parameters, with built-in body posture sensor; when a tumble-down occurs, it sends SMS alerts to the guardian's phone.

With a Multi-parameter cardiac telemetry system, Heartbook can have a real-time alert on APB, VPB, long interval, tachycardia and bradycardia.

Ergonomic design, ultra-light weight/thin, fit and comfortable, continuous heart monitoring for the sports enthusiasts.

What Will Mintti Heartbook Do for You ?

03

What Advantages Can You Get from Heartbook?

What Advantages Can You Get from Heartbook?

Online Diagnosis

Remote consultation provides access to chronic disease management.

Real-time Emergency Alert

A real-time alert on APB, VPB, long interval, tachycardia and bradycardia.

Predicting and Preventing Sudden Cardiac Death

Hello Sandy,

I am in the technical team for the project Claudio is working on. As you can recall, we bought some of your HeartBooks, and we are now working to integrate them in our platform.

In the first stance, let me tell you how exciting is working with your devices. They work very well and the protocol you sent us is very well written.
