Who Are We

Company Mission

Our Mission is to find new ways and means. Starting with the hardware/software technology, via further optimization of disease management and auxiliary medical practice, we focus on big data analysis and AI applications in the healthcare industry, to help everyone with access to advanced and efficient health-care networks and medical services.

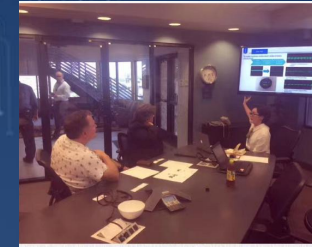

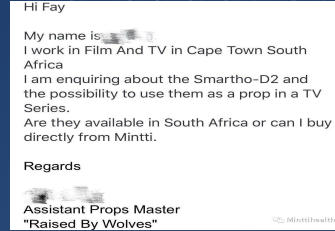

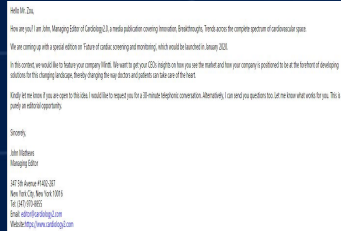

Who We Are

1. One of the founders of Minttihealth has solid working experience in medical equipment and health solution **over 20 years**.
2. Top class R&D team from CAS(Chinese Academy of Sciences)
3. listed as top 23 health wearable brands in the world (only two brands from China) by AP
4. The first and only electronic stethoscope which got both CE marked and FDA approved from China
5. All-star Marketing team(the whole sales team members are assigned as marketing trainers for Alibaba) can assist you with the business plan
6. The only speaker from China on 2019 Sweden Vitalis and 2018 Germany Conhlt exhibition (telemedicine exhibition)
7. The only Chinese brand which was interviewed by Cardiology 2.0 from US, a media publication covering Innovation, Breakthroughs, Trends across the complete spectrum of cardiovascular space
8. Mintti Smartho-D2 was applied by the clinicians of Huoshenshan Hospital for diagnosing patients with COVID-19, and was highly praised by Hoshenshan Hospital.

MINTTIHEALTH STORY

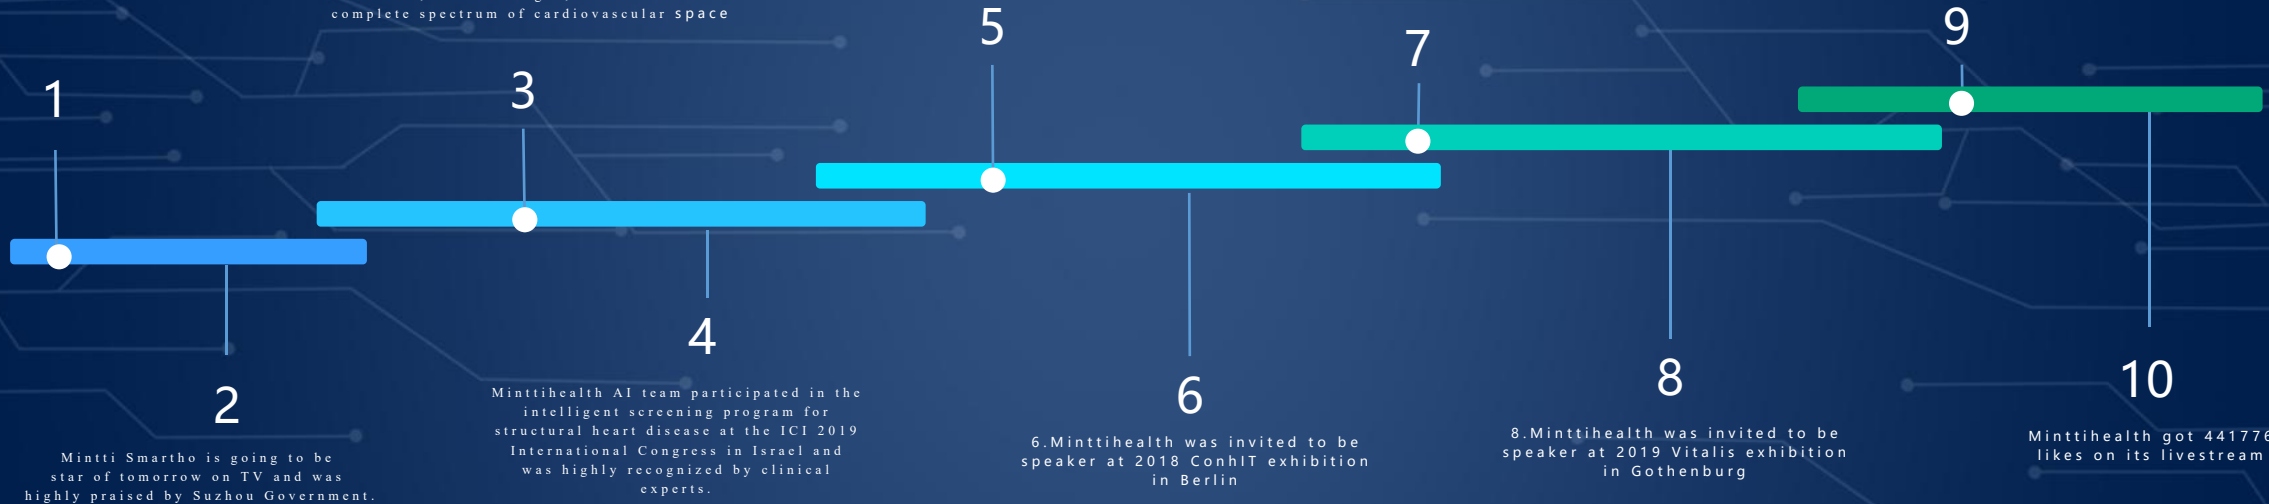

Mintti Smartho-D2 has been selected as a prop in American TV Series!

Minttihealth was interviewed by Cardiology 2.0 from US, a media publication covering Innovation, Breakthroughs, Trends across the complete spectrum of cardiovascular space

Minttihealth was listed as Global Wearable Healthcare Devices (2020-2025)

Our Network - Your Strength

Dear Fay,

We have launched our platform and have used the first shipment of 10 stethoscope in use. I am also making daily presentation to several hospitals in Pakistan to introduce the platform. So far we are getting a good response. The sound quality of your step is very much appreciated by our clients.

Product is amazing!! Just received it and Charing it now

Bravo

Looking forward to your feedback.

Hello Avia,

We have received the stethoscope and it is impressive. What a great device, we are excited to start selling this product. I need some help first though, could you please provide the SDK for the device as we are trying to make sure that it can connect to our app. Please let me know if you can send this today, we have been doing a lot of demos to team members and the feedback is very positive. I also have another question, are you currently selling these in Europe or North America? Thank you.

Hi May 14:59

Good news from our end...! 15:00

Our management have impressed with your product quality. 15:00

So just wanted to initiate our business conversations with your team. 15:01

And also pleased to introduce my colleague Mr. Ranjith he is our product development head. 15:01

Also we have a few more questions to ask from out end. 15:02

Ranjith will explain all those requirements to you. 15:02

The 2 stethoscopes were delivered today. Fant little machines. we were able to test the integration. so far it's good. Will give you a full update in the next few days 凌晨2:02

Hi Dr MacJohn thanks for your kind feedback. 下午2:51 ✓

Should you have any questions during testing and integration, pls feel free to contact me. 下午2:51 ✓

2021年5月11日

Hi Dr MacJohn, how are you? May I know the working status of the Stethoscope? 晚上9:20 ✓

Working well. Finishing up on the platform. We expect to order more soon. Will be in touch

Thank you very much !
You make me very happy cause I can record the sounds : it is very important to teach my students how normal and abnormal sounds look like ! 下午4:06

Glad to receive your feedback. Thank you so much for your kind support. 下午4:07 ✓

Select the records wav in the Internal storage and share
Internal storage>mintti>wav 下午4:09 ✓

Ok thank you very much

ÖZEL TOBB ETÜ HASTANESİ

Mintti Heartbook and Mintti Isteso are amazing products almost every healthcare provider should put to use. Let me tell you how exciting is working with Minttihealth devices, they work very well, the protocol is very well written, the signal is very stable. We couldn't have imagined how comfortable the devices are. Definitely recommendable and reliable.

After-Sale & Warranty Police

Warranty Policy

Once you find any problem after receiving the goods, you can send us emails specifying problems with enclosed pics or videos for our reference.

Our Warehouse Executive and our R&D team will check about your problem with the video and pics you provided, and then provide solutions.

Once the claim is accepted, we will respond and deal with it within 2 working days.

*Three Solutions
For You to Choose*

Warranty Policy

One

we could arrange the new devices to be sent to you by air or DHL if it is urgent.

Two

we could refund the money for the defective goods(including both FOB price and tax) to you or calculate this amount in your next order.

Three

we could arrange these defective goods to be sent to you with your next order.

The background is a dark blue gradient with a complex pattern of glowing white and light blue lines. These lines resemble a circuit board or a digital network, with some lines being straight and others branching out. Small, bright white dots are scattered along the lines, giving the impression of data points or active nodes. The overall effect is a high-tech, futuristic aesthetic.
